

ANIRUDDHA TIWARI

DevOps Engineer | Azure | AWS | CI/CD | Terraform (IaC)

Indore, India | +91 911676582 | aniruddhatiware8@gmail.com | [linkedin.com/in/aniruddhatiware28](https://www.linkedin.com/in/aniruddhatiware28)

Professional Summary

Azure DevOps Engineer with 3 years of experience building and supporting Continuous Integration and Continuous Deployment (CI/CD) pipelines. Uses Azure Pipelines and Jenkins to manage the full application lifecycle - coding, building, testing, staging, release, configuration, and monitoring for 5-6 business-critical enterprise applications on 50-60 Azure virtual machines. Onboards applications onto the DevOps toolchain, configures Dev/Stage/Production environments to client-specific requirements, and automates infrastructure provisioning with Terraform (IaC). Proficient in Git, Azure Repos (Feature Branch Workflow) and Bash scripting for operational automation. Administers secrets and certificate management (Azure Key Vault, SAPM Safe, SSL/TLS) to support system reliability. Resolve 150+ production tickets annually within SLA/TAT and change management processes in a ServiceNow-driven ITSM environment, collaborating cross-functionally with development, security and operations teams.

Core Skills

CI/CD Platforms & Tools: Azure DevOps, Azure Pipelines, Jenkins - pipeline planning, build & release engineering, application onboarding and tool configuration

Infrastructure as Code (IaC): Terraform - authoring and provisioning production infrastructure, environment management (Dev, Stage, Production)

Cloud Platform / Azure Services: Azure Virtual Machines, Resource Groups, Networking (NSG, DNS, Load Balancers), Storage, Patch Management

Version Control: Git, Azure Repos - Feature Branch Workflow, credential management, access control workflows

Containerization & Orchestration: Docker & Kubernetes - containerization fundamentals, pod/deployment/service architecture, orchestration workflows

Scripting & Automation: Python, Bash, Shell scripting - health-check and alerting automation, Ansible, Linux/Unix administration

Monitoring & Troubleshooting: Azure Monitor, log analysis, production issue troubleshooting

Security & Identity: Azure Key Vault, SAPM Safe - secrets management, certificate management (SSL/TLS lifecycle), SSO

ITSM & Change Management: ServiceNow Incident & Problem Management, TAT/SLA-based ticket resolution, root cause analysis, Go-Live coordination

Application Servers & Middleware: Apache, PHP, WebLogic, WildFly, JDK

Professional Experience

Tata Consultancy Services (TCS)

Nov 2023 - Present

Azure DevOps Engineer (Systems Engineer)

- **CI/CD pipeline delivery** - Executed the Continuous Integration and Continuous Deployment (CI/CD) pipeline across the full application lifecycle for 5-6 enterprise applications using Azure Pipelines and Jenkins.
- **Pipeline onboarding** - Onboarded and configured 50+ CI/CD pipelines on the Azure DevOps toolchain across Dev, Stage, and Production environments, maintaining consistently reliable releases with minimal rollback incidents.
- **Infrastructure provisioning** - Designed 50-60 Linux-based Azure Virtual Machines using Terraform (IaC), migrating 5-6 enterprise applications to a new infrastructure vertical with zero functional deviation.
- **Automation scripting** - Developed a Python-based health-check script to monitor infrastructure status and send automated email alerts on failures, enabling proactive issue detection.
- **Access governance** - Managed Git credentials (Feature Branch Workflow), Jenkins access control (SSO, distribution lists), and Azure Key Vault/SAPM Safe secrets per governance processes.
- **Production support** - Resolved 3-4 tickets weekly (150+ annually) within SLA/TAT, following escalation processes and RCA across Linux, Apache, PHP, WebLogic, and WildFly.
- **Cross-team collaboration** - Coordinated with development, security, and operations teams on JDK, Apache, PHP, and WebLogic version upgrades to maintain stability.
- **Release management** - Executed OS/application patch management across 50+ production VMs and led Go-Live coordination for 3-4 production releases, including DNS switchovers and scheduled-job management.

Certifications

- Microsoft Certified: Azure Fundamentals (AZ-900)
- AWS Solutions Architect Associate (SAA-C02)
- AWS Cloud Practitioner (CLF-C02)

Education

Bachelor of Information Technology

2019 - 2023

Acropolis Institute of Technology and Research, India
